Please look for the following security features before accepting this document. THIS DOCUMENT IS VOID IF NOT PRESENT:

- The back of the check contains vertical lines; they should be in alignment or the check is not authentic.
- The front of the check contains a blue background & microprinting "MP" border, under magnification it should read InnoSealPS.
- Invisible watermark on back of check will appear when rubbed with coin, under ultraviolet light or held at an angle to view.
- Heat sensitive pink flag disappears when exposed to heat, by rubbing or touching with thumb.
